

NEW INNOVATIVE CONCRETE FORMWORK PANELS

Corruven is proud to present V-Corr Formwork Panels. A new era in lightweight, high performance and sustainable concrete forming materials.

Increased Productivity

By reducing the weight of each panel by up to 30%, workers can maintain higher levels of energy and productivity

Increased Panel Life

A higher bending stiffness, surface resistance to impacts and moisture, and edge abrasion resistance allows you to use the same panel for longer

Reduced Worksite Injuries

Each V-Corr Formwork Panel in use eliminates up to 8000 pounds per year that your workers must carry

We can help your organization with our new concrete form panel solutions.
